

2020–2021 Colour Chart

— HEX VALUES —

Here's some key information to keep in mind about hex values:

- Hex values are used with HTML, CSS, and photo-editing apps to specify or create more than 16 million colours!
- The hex values below can be used to customise your blogs, websites, graphics, and fonts with your favourite Stampin' Up! colours.
- When using hex values in HTML or CSS, be sure to include both the # symbol and the six-digit value (e.g. #FFFFFF).
